MANAGEMENT

New Varieties: PERENNIALS

Darwin Perennials®

1. *Digitalis hybrida* PPAF 'Balroxose' Arctic Fox Rose

This beautiful hybrid *Digitalis* offers much needed Winter hardiness for northern growers, plus Summer-long flowering for southern growers. It adds striking impulse color for perennial tables and flowers all season long. No vernalization is required and one pinch is all it needs. Arctic Fox Rose is ideal for 2.5-quart and 1.5-gallon pots, and it is hardy in Zones 5 to 9a.

2. *Nepeta hybrid* PPAF 'Balneplud' Nepeta Blue Prelude

This first-year-flowering, robust plant is hardy in Zones 5 to 9a, and offers superb performance in the landscape, producing large flowers and a medium controlled habit over a long flowering season. It scales to 3 feet in the second year. While resistant to pests and disease, Blue Prelude offers fragrant, minty foliage to attract pollinators. Featuring a long flowering season, it's perfect for 2.5-quart and 1-gallon pots.

3. *Caryopteris hybrida* PPAF 'Gold Crest'

Hardy in Zones 6 to 9a, 'Gold Crest' shows beautiful golden foliage in Spring and Summer, accented by blue flowers in late Summer and Fall. With a mounded habit and broad leaves, 'Gold Crest' makes a stunning display in the garden, and its bright color won't fade in intense sunlight. It's best in 2.5-quart pots.

Dümmen Orange

1. Phlox Flame Pro

The Phlox Flame Pro series from Dümmen Orange is a curated sub-series within the grower-favorite Flame series. All five colors flower within seven days of each other, making them great for row run production and harvest. A highly programmable series, Flame Pro matches in habit and bloom time, with great branching and consistent leaf size. A long flowering window, paired with vibrant colors and large umbels, make this a perfect choice for retail sales from late spring into summer. Plants reach a mature height of 14-16" [35-40cm] tall and are hardy in USDA Zones 3-10.

2. Penstemon Pristine

For growers seeking a new Penstemon for spring and summer programs, Dümmen Orange offers the Pristine series of five selections with large flower spikes and long blooming period. Pristine features a medium-compact habit, intense colors and a naturally well-branching habit. With uniformity at the forefront of our breeding efforts, this series is easily grown under a standard production regimen. Boasting strong stems and robust architecture, Pristine reaches 14-18" [35-45cm] tall at maturity and is hardy in USDA Zones 5-9.

3. Delosperma Rock Crystal

Sure to be a consumer favorite with its large, vivid flowers and low-maintenance care requirements, Rock Crystal is a new Delosperma series available from Dümmen Orange. Rock Crystal is a compact series suitable for smaller production programs, from 1 quart up to 1 gallon. Flowering under both short and long days and with seven colors available, this is an ideal choice for retail color throughout the season. Mature plants reach 4-6" [10-15cm] tall and are hardy in USDA Zones 6-10.

New Varieties: PERENNIALS

Green Fuse Botanicals

1. *Leucanthemum Betsy*®

We are pleased to announce that we have finally solved an age-old question: Size does, in fact, matter. Green Fuse Botanicals announces the full introduction of *Leucanthemum Betsy*, the world's largest flowering, day length neutral, no vernalization required shasta daisy. Strutting its 6-to 8-inch blossoms, *Betsy* screams for attention. Excellent in gallon through 14-inch production, *Betsy* can fit programs winter through fall. The flower is so immense that a single flower may last two to three weeks looking fresh. Seriously, literally, a must have!

2. *Dianthus Constant*® Beauty Crush Series

Prepare yourself for a sugar rush: the Crush series is just too sweet to ignore. This all new series crushes all other dianthus with their double bicolor blooms. Like all *Constant*® *Beauty* dianthus, the Crush are also daylength neutral, with zero cooling required and will continue to bloom through high night temperatures. So, yeah, basically a perfect dianthus series. Cherry, Pink, Burgundy, Rose and Orange are all delicious additions to your program. Easily programmable, the Crush series will reduce crop time by months compared to older series. Zone 4.

3. *Lavender Lavish*®

Green Fuse Botanicals proudly introduced the *Lavender Lavish* Pink in 2018 and we are even more proud to introduce the companions, *Lavish* Purple and *Lavish* White. The first and only multibract lavender brings season long color. The *Lavish* series is near neutral allowing season-long programming. Each flower will last five to six weeks – phenomenal! Excellent for indoor retail and outdoor seasonal, lavender is the hottest crop in North America and *Lavish* is the most sought cultivar, as it is the easiest to finish and the quickest to sell!

With year-round production, *CONSTANT BEAUTY*® **crushes** everything you know about ordinary *Dianthus*.

We're crushing all boundaries on seasonality with our daylength neutral, first year flowering varieties in dianthus. Perfectly predictable any time of the year, these luscious colors make profitable programs in every season.

New Varieties: PERENNIALS

Intrinsic Perennial Gardens

1. *Gemum* 'Chery Bomb'

Semi-double sterile flowers between grenadine and vermillion red fade to cherry pink. Held on maroon stems to 15" tall. Nice fuzzy green foliage too in mound 10" tall and 12"-15" wide. Rich moist soil 50 plug 1.50 in sun is best.

2. *Sedum* 'Lime Joy'

Gray-green foliage erupts on vigorous plants. By mid-July, domed lime green buds resemble Hydrangeas. In September, the flowerheads swell to 6-8" packed domes of pink and magenta bi-color flowers. NEW for 2019 - the strong stems grow to 15" tall and take on some red-purple coloration. 70 plug 1.25 Full sun, well-drained soil.

3. *Pennisetum* 'Yellow Ribbons'

Yellow foliage plants are nearly the same size as 'Hameln' with thin golden yellow foliage that mellows to chartreuse yellow by fall. NEW for 2019 - light tan colored flowers bloom in August and end in October on 24" stems. 50 plug 2.50 Zone 5 to 9.

Kieft Seed™ Perennials from PanAmerican Seed®

1. Dianthus Rockin'™

This dynamite series will keep perennial borders rocking for years to come, thanks to its vivid color, durable performance and count-on-it overwintering. The Rockin' series opens the door to premium product sales in perennial quart and gallon programs for mid-Spring and the Autumn decorating season. There are three bold new colors for 2020: Purple, Rose and Pink Magic. Their lacy, slightly scented flowers sit atop full and long-lasting plants – this one delivers lots of plant for the money that's sure to satisfy gardeners. Reliably overwinters to USDA Zone 5 to assure multi-year performance.

2. Leucanthemum Madonna

Madonna lets you send better-looking shasta daisy containers to retail. It offers better uniformity in height and habit over its competitors, plus it's an excellent alternative to vegetative leucanthemum. It doesn't need vernalization or have a risk for bacterial infection. The result is picture-perfect containers on the bench and in the store. Madonna is a Fleuroselect Gold Medal winner, too. It features excellent vigor and leaf quality. Up to 15% of its petals may have a laced edge for a unique look. It blooms Summer through Autumn and mixes well in combination plantings. Hardy to USDA Zone 5a.

3. Salvia nemorosa Salvatore Blue

Open the door to seed salvia! With the tallest spikes and the deepest blue color, new Salvatore Blue is an excellent alternative to vegetative salvia. Plus, it offers a critical daylength of 10 hours for finishing in early Spring, which previously was only possible with vegetative varieties. This premium-looking salvia has a dark-colored calyx, spike and flower. Its black stem makes a dramatic statement in the home garden. This Fleuroselect Novelty winner is more vigorous than New Dimension™ Blue and is better suited for gallons. It's ideal for annual and overwintering production. Hardy to USDA Zone 4a.

Must Have Perennials

1. *Dendranthema Autumn Spice Igloo*® USPPAF

USPPAF is a truly hardy perennial in USDA Zones 4-9; full sun. Covered in 1¾ inches of orange-bronze blooms and attractive lobed green leaves, it grows into a show-stopping ball of color with no pinching. With a mature height of 18-20 inches tall and 24-30 inches in spread, the Igloo series brings unprecedented uniformity and flower power to the late summer/early autumn perennial border.

2. *Lychnis flos-cuculi* 'Petit Henri' USPPAF

This boasts a candelabra of shaggy, white, double flowers about ¾ inches in diameter, with a foliage of grey-green. Height is 18-24 inches tall and spread is 14-18 inches wide. With an exceptionally long bloom time from late spring through fall, the *Lychnis flos-cuculi* can grow in sun/part shade in USDA Zones 3-8. It's great in small cottage gardens and containers. It attracts hummingbirds and butterflies and tolerates deer.

3. *Lupinus polyphyllus* Westcountry 'Blacksmith' USPPAF

Nothing quite creates the "wow" effect in a garden or container like Lupines. Their dark purple and white bicolor spikes are 30 inches tall with a 25- to 30-inch spread. Its strong stems don't require staking since it can grow in a 2-gallon or larger container in full sun/part shade, USDA Hardy Zones 5-7. Bloom time is late spring to early summer. It is grown from tissue culture. Vernalization is not required, but bulking is suggested.

All are offered by Must Have Perennials® through licensed propagators.

Walters Gardens

1. *Brunnera macrophylla* 'Queen of Hearts' PPAF CPBRAFF

This new stunning foliage perennial from Proven Winners® Perennials will be the queen of the shade (and your heart). 'Queen of Hearts' has heart-shaped leaves and a pronounced silver overlay with narrow bands of dark green veining. Exceptionally large leaves can grow up to 12" wide. Zones 3-8.

2. Allium 'Serendipity' PPAF CPBRAFF

Anyone looking for reliable late summer color and exceptional deer and rabbit resistance should consider this new perennial from Proven Winners®. This sport of A. 'Millenium' shares all of the qualities that made 'Millenium' so popular, with the addition of glaucous blue foliage. Zones 4-8.

3. Sedum ROCK 'N GROW'® 'Boogie Woogie' PPAF CPBRAFF

People love variegation in perennials and this is an exciting new option! Enter 'Boogie Woogie', a fantastic summer-flowering groundcover perennial that will definitely make your garden feel groovy. This new perennial from Proven Winners® has cream margins that make the plant look bright and is sprinkled with yellow flowers during early to mid-summer. Zones 3-9.

With our Allium bare roots we focus on the crown, knowing a large crown creates a large plant.

Amazing Alliums take root here.

From the beginning we have continuously worked to improve, grade generously, and offer the very best product we can. This goal has led us to become the largest supplier of bare root perennials in North America with one of the most diverse catalogs. Bare root has always been a part of our identity and represents our continued commitment.

NEW PERENNIAL VARIETIES

Your guide to the latest perennial varieties from around the world

Compiled by Sierra Allen, Chris Manning, Kate Spirgen and Patrick Williams

ACHILLEA

Achillea **'Firefly Sunshine,'** a new bright yellow achillea from **Proven Winners,** has flowers that hold their color as they age for an impressively long season of bloom. 'Firefly Sunshine' differs from other yarrow due to its taller height and uncompromising sturdiness. Don't miss the other members of the collection, coming in colors of pink, peachy-orange and white. Zones 3-8.

AGASTACHE

Agastache **SUNNY SPARKS Pink,** from **Danziger** and available through the **ThinkPlants** program, flowers around four weeks from transplanting and offers better plant structure compared to seed varieties. This Zone 5 perennial provides first year flowering with no cooling period needed. **SUNNY SPARKS'** purple-pink blooms are very large and the flowers last for at least four months, from spring until frost, providing long-lasting color to garden beds and containers. **SUNNY SPARKS Pink** is recommended for gallons or larger.

Agastache **Sunrise Salmon Pink,** a striking new bicolor, joins the now eight-color Sunrise series from **Green Fuse Botanicals,** making it the most extensive Agastache series ever. Daylength neutral and no cooling requirements not only make the Sunrise a quick finish, but their masses of flower spikes blur the line of annual and perennial. Zone 5 hardy, the Sunrise series will win over homeowners almost as much as hummingbirds and other pollinators. The minty scent of the foliage makes sure that all five senses are engaged on the retail level.

New Varieties: PERENNIALS

Charmelita

tion to its pot alstroemeria assortment: **Charmelita**. The plants in this interesting series display the same distinctive flowers as the cut flowers of its older sister, Charmelia. Charmelitas are genetically compact and are remarkable because of their profusion of flowers and extra-long keeping quality. They develop into robust compact plants for trouble-free transport.

ARENARIA

Arenaria **Winter Lemon**, from **Syngenta Flowers** and available through the **ThinkPlants** program, has a compact and grower-friendly habit. Ideal for smaller containers, it's well-matched with Arenaria Winter White. It has low chilling requirements and excellent early spring color. Height: 10 inches. Width: 6 inches. Bloom months: Early to late spring. USDA Zones 7-9. Container size: 1 to 2.5 quarts.

ATHYRIUM

Add fine textures to your shade garden with *Athyrium niponicum* **'Crested Surf'**, a new Japanese painted fern from

**Arenaria
Winter
Lemon**

Proven Winners. 'Crested Surf' has similar coloring to traditional varieties but stands out with unique double-crested fronds and impressive vigor. A taller variety. Zones 3-8.

CALLA

Calla **Captain Brunello**, from **Kapiteyn** and available through the **ThinkPlants** program, has vivid orange blooms with a yellow exterior. It is a taller variety with large blooms. It has a very strong color, long shelf-life and high number of flowers per tuber. Its orange blooms are good for both spring and fall sales. Height: 18 inches.

**Athyrium

**Calla
Captain
Solo**

Width: 18 inches. Bloom months: Early spring to fall. USDA Zone 8.

Calla **Captain Solo**, from **Kapiteyn** and available through the **ThinkPlants** program, is a short pot variety. It has a very strong color with a long shelf-life, as well as a high number of flowers per tuber. Its bright yellow blooms are good for both spring and fall sales. Height: 18 inches. Width: 18 inches. Bloom months: Early spring to fall. USDA Zone: 8. Container size: 2.5 quarts and larger.

**Caryopteris
PAVILION
Pink**

New Varieties: PERENNIALS

**Calla
Captain
Brunello**

CARYOPTERIS

Caryopteris **PAVILION Pink**, from **Danziger** and available through the **ThinkPlants** program, delivers late summer color that lasts through early fall. This Zone 5 perennial features first-year flowering without a cooling period. PAVILION Pink's fluffy, blush-pink flowers arrive in late summer and last throughout the season. It is a great fall item, recommended for quarts and gallons.

CYCLAMEN HALIOS LITCHI Rose exp. from Morel Diffusion

is a new fancy color lined with clearer rose. It is a very round plant growth and tightened with a very contrasted marble foliage. It has plentiful blooming and very small leaves. With an impressive flower count, it is recommended for big pots. It is a long-lasting plant.

New Varieties: PERENNIALS

METALIS
magenta

METALIS from **Morel Diffusion** is a new range for the lovers of “midi-shaped” flowers. It has an excellent new range of six colors. Very homogeneous port. Very contrasted silvery foliage. Very round growth and a very dense foliage. Bright silver leaves extremely regular. For performance and profitability.

TIANIS FANTASIA from **Morel Diffusion** is an evolution of the range in three colors: Red exp., Deep Magenta evolution exp. and Purple evolution exp. The new generation of **TIANIS FANTASIA** offers larger sized flowers and more differentiable of the “mini” series. Shorter and very well centered stalks. High performances for outdoor use.

DELOSPERMA

The intensity and brightness of **Delosperma Delmara Fuchsia** from **Green Fuse Botanicals** is an excellent accompaniment to yellow, orange, red and pink in this award-winning series of **delosperma**. **Delmara** has a tight, well-rounded habit that produces year-long masses of flowers throughout the plant,

TIANIS
FANTASIA
Rouge

not just on the tips like other **delosperma** series. The **Delmara** series was bred from alpine **delosperma**, so not only does it bloom year-round without the need for lighting or vernalization, it is also Zone 3 hardy.

Delosperma WOW Salmony Pink Wonder from **Jaldety** is a great addition to the beautiful series of **Delosperma Wheels of Wonder**. Masses of eye-catching salmony pink, big flowers create a huge color impact. It flowers continuously for a very long period. Exceptionally drought and heat tolerant, winter hardy. Easy to care, attracts bees and butterflies. Great for mix containers, hanging baskets for patio and balcony, mass planting, low borders.

DENDRANTHEMA

Dendranthema Brilliant Igloo' from **Must Have Perennials** is a truly hardy perennial in USDA Zones 4-9; full sun. Covered in 1¾-inch sunshine-bright yellow blooms. Grows into a show-stopping ball of color with no pinching. Mature height is 18-20 inches tall with

New Varieties: PERENNIALS

Fuchsia

Delosperma
WOW
Salmony
Pink Wonder

Dendranthema
Brilliant Igloo'

a 24-30 inch spread. The Igloo series brings unprecedented uniformity and flower power to the late summer/early autumn perennial border.

DIANTHUS

Dianthus interspecific **Supra Scarlet** from **Hem Genetics** has an intense orange-red color that will pop in the garden. It is the latest color addition to Hem Genetics' Supra series of perennial dianthus. Flowering the first year, this series is a cross between two spe-

cies, *Dianthus chinensis* with superbus, and the latter imparts hardiness to USDA Zones 5 to 11, plus improved heat tolerance. Supras were rated as top "Summer Survivors" in the FNGLA trials in Florida the past four years. Being interspecific, they don't form seeds; the effort goes into producing more flowers. Two Supra varieties, Purple and Pink, won AAS awards. And they work equally well as annuals.

DICENTRA

Dicentra 'Pink Diamonds' is not your typical Dicentra — it is not a shade plant. **Proven Winners** perennials selected this alpine variety for its fern-like foliage, long season of bloom and performance in full sun. Clusters of pink flowers will appear over the foliage from the beginning of summer well into autumn. Excellent as either a container or landscape plant. Zones 3-9.

ECHINACEA

The Sombrero series from **Darwin Perennials** is known for its sturdy, compact plants covered in bright, rich colors. Its vibrant color is only matched by its exceptional winter hardiness and excellent branching. Highly floriferous with blooms that attract butterflies and birds. It has great retail presentation, commanding a premium price. Plant Sombrero in the spring and sell it the same year. New for 2020 are bright yellow **Summer Solstice**, which has a white halo around its center cone, and **Tango Tangerine**, a coral/salmon tone with modern appeal. Hardiness Zones 4b-9b.

Echinacea **'Tweety'**, presented by **Emerald Coast Growers**, brightens any spot with its large, golden-yellow flowers and compact habit. It grows to 8 inches tall and 6 inches wide. 'Tweety' stands out for its excellent pot performance but also excels in gardens and combinations. It prefers sandy, well-drained soil and full sun. 'Tweety' blooms from early summer to fall and is hardy to Zone 4.

ERYSIMUM

Erysimum **Erysistible series**, from **Syngenta Flowers** and available through the **ThinkPlants** program, is Zone 5-9 hardy with bright bold colors including a tricolor (first in its class). Controlled, well-branched plants work across a range of containers. A great

Gaura Bantam
Iris Pink

choice for vibrant colors in the early spring that extends into the heat of summer. Height: 22 inches. Width: 16 inches. Bloom months: early to late spring. Container size: 1 to 2.5 quarts.

Erysimum Sunstrong Orange, from **Danziger** and available through the **ThinkPlants** program, is a true breakthrough in breeding. In the past, *Erysimum* were seen only as spring bloomers. **Sunstrong** flowers early and provides blooms all summer long, even in the southern U.S. **Sunstrong** delivers first-year flowering without a cooling period, offering growers more flexibility and the opportunity to extend the season on either end. **Sunstrong Orange** has bright, tangerine-hued flowers with a delicate, fresh scent. This Zone 6 perennial has exceptional heat tolerance and is a great

Gaura lindheimeri
'Summer Bloom'

thriller plant in large containers. It is also stunning in the landscape.

GAURA

The introduction of **Gaura Bantam Iris Pink** from **Green Fuse Botanicals**

brings an explosion of color into the Bantam Series. *Iris* is daylength neutral, just like Bantam white and pink. It also shines with a rainbow of variegated foliage in cream, pink, green and red. *Iris* is Zone 5 hardy and works equally well in the garden as it does in containers. It makes an excellent combination component in a perennial or annual mix.

Gaura lindheimeri 'Summer Bloom' from **Hishtil** has compact to dwarfish perennial plants with large and crowded flowers in a range of colors (Cherry, Pink and White). It grows up to 40 cm in height and has a long flowering season. This series is easy to maintain, full sun and a little bit of water is all that is needed. It can be used for planting a garden hedge and borders to create a great blossoming appearance.

Gaura STEFFI Dark Rose, from **Danziger** and available through the **ThinkPlants** program, provides first-year flowering with no cooling needed. **STEFFI Dark Rose** shows excellent heat tolerance with a medium growing habit. It will also bloom in short days. This Zone 6 perennial provides continuous rosy, dark-pink blooms from early spring through fall. It's great in the landscape or in large containers. The **STEFFI** series is recommended for gallons or larger pot production.

GEUM

Geum coccineum Orange Queen from **Hem Genetics** is a very beautiful small perennial with bright orange flowers profusely produced in mid and late spring. *Geum* seed is often difficult to germinate. We treat the seed using various processes, including priming, which dramatically improves the germination, uniformity and yield. While *Geum* will produce flowers the first year, flowering is greatly increased by vernalizing the plants. Hardy in USDA Zones 5-9. Also

Gaura Steffi
Dark Rose

Geum coccineum
Orange Queen

Geum Top Shelf Margarita

a beautiful addition to container gardens.

The clear and bright yellow of **Geum Top Shelf Margarita** from **Intrinsic Perennial Gardens** is nearly semi-double and stands out against the deep green foliage. Upright habit of red stems 15 to 18 inches tall. Makes great presentation in pots and at retail. Reliable rebloom on almost half of the plants is an exciting addition to this genus after 10 years of breeding.

GYPSOPHILA

Gypsophila cerastioides Pretty Maid from **Jaldety** is a great flowering hardy peren-

Gypsophila cerastioides Pretty Maid

Hemerocallis
Island Jekyll

Heuchera LITTLE
CUTIES 'Shimmer'

nial with masses of white with light pink veins and fragrant flowers. Mounding, dense habit. Perfect for spring color from April onward, attracts bees and butterflies, easy to maintain. Excellent for patio plants, combinations with other hardy perennials, rock gardens, containers.

HEMEROCALLIS

Hemerocallis **Island Collection** from **Unex**, available through the **Think-Plants** program, includes the new varieties Cumberland, Jekyll, St. Simons and St. Catherine's. These new Hemerocallis all have very large flowers and very durable strapping foliage. All the new Island Hemerocallis are tetraploids, making them vigorous, fast to flush and able to fill a container. The flowers on these new introductions do not disappoint. They are all of grand size, with bright colors and many have a beautiful ruffled edge. USDA Zone 4. Will take full sun. Produced by bare root. Varying heights and sizes in the collection.

HEUCHERA

Heuchera **LITTLE CUTIES 'Shimmer'** from **Terra Nova Nurseries** has striking silver-green leaves and blooms deep-pink flowers from April to November. The petite heuchera and mounding perennial is a long bloomer and has dense crowns of green foliage. USDA Hardiness Zones for Heuchera LITTLE CUTIES 'Shimmer' are 4-9, and it offers the ability for partial to full sun exposure. The variety's mature plant height is 5 inches, with a width of 11 inches and an extended flower height of 15 inches. The perennial

Heuchera
Northern
Exposure
Sienna

works wonderfully in mass plantings, containers, borders, mixed beds or even as a houseplant.

Heuchera **Northern Exposure Sienna** from **Terra Nova Nurseries** shows crisp, fresh green leaves in the fall and spring that blend into a sienna orange in the summer. Heuchera Northern Exposure Sienna blooms pink flowers from April to June. This showy garden plant was bred from hardy *H. richardsonii* and keeps its appearance longer in the season than any other heuchera. The variety's mature plant height is 13 inches, with a width of 21 inches and an extended flower height of 22 inches. Heuchera Northern Exposure Sienna's Zones are 4-9. This plant can grow in full sun or partial shade.

HEUCHERELLA

Heucherella **'Indigo Frost'** from **Terra**

Heucherella
'Indigo Frost'

Heucherella
'Peach Tea'

Nova Nurseries has dark purple leaves and multiple crowns that produce pink buds. The pink buds eventually develop into white flowers that bloom from May to July. The dark purple and silver-veiled leaves of this fast-growing perennial can add needed winter color to a garden. USDA Hardiness Zones for Heucherella 'Indigo Frost' are 4-9 and it is a partial- to full-shade variety. It has a small, mounding habit with a mature plant height of 7 inches, a width of 8 inches and an extended flower height of

New Varieties: PERENNIALS

Hosta
'Dancing
Darling'

9 inches.

Heucherella 'Peach Tea' from **Terra Nova Nurseries** has large peachy-red leaves that contrast beautifully with its cream-white flowers. This plant is vigorous and compact while also offering a glow of daintiness to the landscape. Heucherella 'Peach Tea' works well in a container, in a mass-planting and as a summer border. USDA Hardiness Zones for Heucherella 'Peach Tea' are 4-9. It has a mature plant height of 12 inches, a width of 22 inches and an extended flower height of 17 inches.

HOSTA

Hosta 'Dancing Darling', presented by **Emerald Coast Growers**, features unique yellow-golden curled foliage with green edges. Plant 'Dancing Darling' in a moist, cool, humus-rich and well-drained soil. It prefers sun to shade. 'Dancing Darling' reaches 15-20 inches tall and 24 inches wide. This fast-

Hosta 'Proud
Treasure'

growing hosta is excellent as a specimen plant, for mixed containers, in mass plantings or in borders.

Hosta 'Proud Treasure', presented by **Emerald Coast Growers**, has beautiful glossy green foliage with a wide margin that's first yellow, then changes to cream-white. It creates a beautiful contrast against dark, red stems and lilac flowers. The foliage is thick, strong and slug-resistant. 'Proud Treasure' prefers sun to

*Lavandula
angustifolia*
'Annet'

*Lavandula
angustifolia*
**BeeZee Dark
Blue**

shade and grows 11-14 inches tall and 16 inches wide. Try this fast grower in mixed combinations, mass plantings or borders, or as a specimen plant.

LAVANDULA

Lavandula angustifolia 'Annet', an English lavender from **Darwin Perennials**, has super-sturdy, strong stems that makes it an excellent lavender for bouquets. Holds up to shipping and remains healthy at retail. No vernalization required. Gardeners will have large florets throughout the heat of summer.

Lavandula angustifolia Promise
[Hidcote-type]

New Varieties: PERENNIALS

Zones 5a-9a.

In co-operation with the world-famous plant breeder David Kerley, **Hishtil** is proud to introduce to you the new and exclusive *Lavandula angustifolia* **BeeZee series**. This series brings five colors of hardy, angustifolia 'English' lavender. A completely uniform series with the same height, compact habit and flowering time. Perfect for 1- and 2-liter pot production, packs and mail order sales. The series consists of White, Pink, Light Blue, Blue and Dark Blue.

Lavandula angustifolia **Promise** (Hidcote-type) from **Hem Genetics** is a variety with profuse flower production on a plant with a compact habit with the typical lavender scent. Perfect for the perennial garden as a source of fragrance that can also be brought indoors for use in potpourris and culinary creations. Seed is treated and primed for improved germination percent, uniformity and yield. For best flowering, Promise should be vernalized. Hardy in USDA Zones 5-9.

As the first professional-quality seed *Lavandula stoechas* on the market, *Lavandula* **Bandera** from **Kieft Seed Perennials** from **PanA-merican Seed**

is an excellent conversion opportunity from vegetative.

Bandera
Deep Rose

New Varieties: PERENNIALS

Lewisia cotyledon
Special Mix

Prairie Dog

This compact, bush, no-pinch plant, now available in **Deep Purple** and **Deep Rose**, has great flower power just 11 to 14 weeks from transplant. And it's quick to finish compared to vegetative varieties. No pinch means less production time, making it an all-around perennial win-

Lupinus polyphyllus Westcountry
Persian Slipper'

ner. It produces deep summer color in purple and rose that flowers long into the season. It holds its dense, mounded habit in the garden without falling open. Attract bees and butterflies, as well as customers!

LEWISIA

Lewisia cotyledon **Special Mix** from **Benary** is a striking perennial as versatile as it is beautiful. Use it as a gift plant, flowering succulent or accent plant in borders, mixed containers and rock gardens. *Lewisia* Special Mix is a true perennial so it flowers in the first year and then every year after. Special Mix thrives in full sun and is quite drought-tolerant and blooms for months in most climates. Color mix of rose, salmon shades and pink. Available as ApeX seed.

LUPINUS

Lupinus polyphyllus **Westcountry Persian Slipper'** is new from **Must Have Perennials**. Lupines make a statement with a capital "S" in gardens or containers. Dusty periwinkle blue spikes are 24 inches tall and 25-30 inches wide. Strong stems don't require staking. Grow in a 2-gallon or larger container in full sun/part shade. Zones 5-7. Bloom time is late spring. Grown from tissue culture. Vernalization not required, but bulking is suggested.

PANICUM

Prairie Dog from **Intrinsic Perennial Gardens** was selected for a more reserved habit growing 4-5 feet tall with new for 2019 clean blue foliage on upright growth. Heavy flower plants bloom on the top third of the plant.

PENNISETUM

Enjoy high-quality, professional seed of this popular, hardy perennial. Also

Pennisetum
setaceum
Fuzzy

New Varieties: PERENNIALS

known as fountain grass, *Pennisetum setaceum* **Fuzzy** from **Benary** has fine green leaves and a 4-5 inches (10-12 cm) pink/purple inflorescence which forms in mid-summer. The full, lush

New Varieties: PERENNIALS

**Penstemon
'Pentastic'
Pink**

habit forms attractive dense tufts in the spring, then rapidly matures into tall arching “fountain” of grass for bedding and mixed containers. It also provides beautiful winter interest. Available as rubbed seed with good availability.

PENSTEMON

The Penstemon ‘Pentastic’ series from **Hishtil**, featuring Blush, Pink, Red and Rose, shows tremendous results. No PGR is needed. A uniform growth habit and flowering, long flowering season and big bell-shaped flowers make this series so desirable to many clients. Pinch once and get a well-branching, heavy blooming container performance.

SALVIA

Salvia **Apex Blue and Pink**, from **Danziger** and available through the **ThinkPlants** program, is available in both Blue and Pink. It features first-

**Salvia
Apex Blue**

year flowering with no cooling period needed. This compact and exceptionally uniform salvia series is hardy to Zone 4. Apex boasts upright, well-branched inflorescences that are very quick to rebloom. The foliage stays short and narrow, allowing the flowers to stand out. Apex Salvia is recommended for gallons or larger containers.

Salvia **So Cool Pale Blue** from **Jaldety**

**Salvia So Cool
Pale Blue**

New Varieties: PERENNIALS

is a flowering and structure plant — an evergreen bushy tender hardy perennial. Distinct flowers start, icy blue, mature to lilac, large free flowering flowers. An eye-catching flower color early summer to autumn. Excellent, upright, well-branching, dense habit. Easy to care, attracts butterflies and bees, low maintenance. Use for small beds, big containers for patio and decks (great contrast to hot color varieties), mix borders, group garden planting, cottage and meadow gardens.

Green Fuse Botanicals has developed a completely new classification on nemorosa, Multiflora. A proven performer in coast to coast trials, Salvia **Swiftly Multiflora** is a clear winner as the only *Salvia nemorosa* that not only survives the heat of the south, but thrives. Swiftly Multiflora will produce two to three times more blooms than market leaders and, more importantly, will not “bolt” or split after first flower. Extremely high resistance to bacterial leaf spot makes this all-new series a must for all perennial growers. Swiftly Multiflora is available in both Violet and Rose.

SCABIOSA

Scabiosa incisa ‘Kudo’ from **Hishtil**, available in Pink and White, is a magnet for bees and butterflies. Ideal for beds and borders with abundant flowering all summer long.

SEDUM

A petite new addition to the popular SunSparkler sedum series, ‘Angelina’s Teacup’ is a mini of sedum ‘Angelina’

**Swiftly
Multiflora
Rose**

**Scabiosa incisa
'Kudo' White**

**'Angelina's
Teacup'**

'Dream Dazzler'

Sedum 'Peach Pearls'

Sedum rupestre
Prima Angelina

presented by **Emerald Coast Growers**. As the smallest SunSparkler and the first non-blooming 'Angelina', it forms a tight groundcover just 3 inches tall and 18 inches wide. Its bright yellow foliage lasts into fall, when cool temperatures bring on a blush of orange. 'Angelina's Teacup' prefers full sun and is hardy in Zones 3-9.

New to the popular SunSparkler series of sedums is **'Dream Dazzler'**, a sport of 'Plum Dazzled', presented by **Emerald Coast Growers**. Its vivid tricolor leaves feature hot pink edges around deep purple and green centers. Masses of rich magenta flowers cover plants starting in early fall. 'Dream Dazzler' reaches up to 8 inches high and spreads to approximately 24 inches. It prefers sun to part sun and is hardy in Zones 4-9.

Sedum **'Peach Pearls'** from **Terra Nova Nurseries** is noted for its burgundy leaves, rose-gold flowers and multiple crowns in its first year. Sedum 'Peach Pearls' is a pollinator attractor, deer-resistant and forms an excellent habit. This fast-growing perennial blooms in August and September, and can add splashes of orange and pink tones for mixed beds, borders, rock gardens or containers. Zones for Sedum 'Peach Pearls' are 4-9 and it has a mature plant height of 14 inches, width of 24 inches and an extended flower height of 20 inches. This sedum variety allows for full sun exposure.

The striking needle-shaped leaves of *Sedum rupestre* **Prima Angelina**, a Stonecrop from **Darwin Perennials**, are a brilliant, golden yellow color. It's wonderful as a groundcover or for rock gardens. It's deer-resistant and has fascinating winter interest too, where it retains its gold color. A sport of 'Angelina', this variety has a denser, more compact habit and more vivid color. Ideal for 1- to 2.5-quart pot sizes. Zones 4a-9b.

Sedum **Silver Roses** from **Jaldety** are structure and color plants. These low-growing hardy perennials are grown for their attractive silver, rosette-like, succulent, fleshy foliage. Mounding, mat-forming, dense habit. Heat and drought tolerant, low maintenance. Great contrasting small groundcovers, rock gardens, low borders, along walkways, front of flowerbeds, miniature gardens, containers and combinations.

This sister seedling to **Intrinsic Perennial Gardens'** 'Pillow Talk', **Sunset Boulevard**, has darker raspberry-colored flowers and exceptional fall foliage and color throughout the plant with lime-green, orange and red fall foliage on red stems with new for 2019 wine-colored seedheads. An exceptional fall plant and great for containers. Does best in full sun and well-drained soil.

Sedum **'Yellow Brick Road'** is a gorgeous groundcover sedum from **Proven Winners** perennials. Low and wide spreading, 'Yellow Brick Road' is perfect to edge patios and walkways, or to use as a spiller in

Sedum Silver Roses

Sunset Boulevard

Sedum 'Yellow
Brick Road'

Spigelia marilandica
'Little Redhead'

Senecio crassissimus
Purple Line

containers. In late summer yellow flowers completely cover the foliage. Zones 3-9.

SENECIO

Senecio crassissimus **Purple Line** from **Jaldety** is a great additional texture and color plant. Upright, rounded evergreen succulent, with an attractive silver-green, purple margins, flat, fleshy foliage. Easy to grow, low maintenance, drought tolerance. Can be used for small landscape, garden group planting, rock gardens, patio plant, excellent in patio containers and combinations with other succulents.

SPIGELIA

Spigelia is a versatile perennial, growing naturally in both sun and shade. *Spigelia marilandica* **'Little Redhead'** from **Walters Gardens** is a superior selection of the species, vegetatively propagated to ensure uniformity. Dark red tubular flowers with yellow interiors are produced above top of an upright clump of dark green, wedge-shaped leaves. Available as a 1½ year old bare root plant. Zones 5b-9.

VERBENA

Verbena bonariensis **Purple Haze** from

Hem Genetics is one of the best pollinator/butterfly plants for the perennial garden and will flower throughout most of the growing season. *Verbena bonariensis* can be quite large, often 5 feet or taller, so it is definitely a feature plant, but the Hem Purple Haze matures at a height of about 20% less than the species. *V. bonariensis* is typically poor germinating seed, with germ in the 30-50% range not

uncommon. Hem offers only “Profi” seed, which is treated with several processes primed, with a germination goal of 90% plus. Zones 7-11. Blooms the first year.

Verbena rigida **Dazzling Nights** from **Hem Genetics** is an outstanding butterfly/pollinator attractant for the garden and grows to a height of approximately 24 inches. Blooming the first year, it flowers profusely throughout the growing season with deep lavender purple flowers in terminal clusters. As a perennial, it is best in ground plantings, but it can also be used as an annual in mixed containers to attract butterflies. This species often has poor germination, but Hem offers only primed “Profi” seed, which germinates in the 90% range. Zones 8-11.
