New Varieties: Annuals

PanAmerican Seed®

1. NEW Jolt™ Purple F1 Interspecific Dianthus

Shocking Summer Color from the most heat-tolerant interspecific dianthus! Electrifying colors and all-season performance make Jolt stand out in landscapes and premium containers. These highly durable plants withstand hot conditions with few disease issues and continue to flower without setting seed. The grower-friendly, well-branched plants are easy to produce with less to no PGRs. NEW Purple is drive-by bright with a bloom size and landscape performance to match the series.

2. NEW Beacon® Rose F1 Impatiens

Beacon brings *Impatiens walleriana* back into production without the risk of disease! Extensive trialing has proven that Beacon offers high resistance to the currently known and widely prevalent populations of *Plasmopara obducens*, which cause Impatiens downy mildew. The series has a plant structure, flowering time, flower size and crop culture similar to New Guinea impatiens. It also provides fast-filling, season-long color for gardens and landscapes. NEW Rose features well-branched, medium-vigor plants with clear rose flowers.

3. NEW E3 Easy Wave™ Series F1 Petunia

It's **E**arly, it's **E**fficient, it's the **E**volution of Easy Wave®...it's **NEW E3 Easy Wave!** This brand-new Wave® series flowers at 10 hours daylength, so it's ready to kick off Easy Wave sales even earlier! With a manageable, uniform plant structure and vigor, this new series offers simple production and provides beautiful plants that look better longer at retail. Available in 7 vibrant colors, all with the extraordinary garden performance consumers expect from Wave.

Benary

1. Like the rest of the series, GRAFFITI™ 20/20 Cranberry thrives in hot climates, and this new unique, bold color is sure to stop customers in their tracks! GRAFFITI™ 20/20 Cranberry has huge, dense flower clusters and rich green leaves. Cool nights bring out the intense cranberry color for maximum impact!

2. NONSTOP® JOY Orange has an intense flower color and was bred to be super shippable. Tough enough for sleeving and rack shipping, the NONSTOP® JOY Series creates a new, reliable product class for your basket programs. NONSTOP® JOY Orange has a full mounded habit, and dark green leaves that make the plant look lush and healthy. The NONSTOP® Joy Series is now available in Red; Yellow; Orange; Rose Picotee; Mocca White and Mix.

3. Easy to grow! Scaevola ABANICO Compact Purple and Rose Improved are drought tolerant once established and tolerate poor soil. Great in patio pots and baskets, these two beauties look great are very well matched for vigor and timing so they look great together or in mixed containers. Now available from cuttings through **BenaryPlus.com**

CALIFORNIA

SPRING AND SUMMER TRIALS

April - August 2021

This year, for CAST 2021, we decided to kick-off CAST 2021 early! From now until Aug. 31 you are welcome to come and visit our trial grounds in Watsonville, Calif., at any time during business hours.

We want to see you, now that traveling is becoming easier again, so you can start learning and selling as early as you want to, and are used to, in years past.

Just contact us for a time to visit. You can see our newest varieties from Benary and Benary+ in a real, outdoor trial, whenever it's convenient for you.

Don't miss new FastraX perennials, such as Achillea Marshmallow, Catwalk White, Coreopsis Halo and Dianthus RoseQuartz!

Due to COVID-19 concerns, and the need to provide safe social distancing, all visitors are required to register for a visit at CAST@Benary.com. No walk-ins will be permitted.

New Varieties: Annuals

Danziger

1. Capella™ Hello Yellow™

Capella™ Hello Yellow™ Petunia is a new variety that greets consumers with bold, eye-catching golden blooms. While Capella maintains controlled growth in the greenhouse, filling quarts with minimal to no PGRs, it continues to flourish long after it leaves the retail shelf – a win-win for growers and consumers. Capella's welcoming hue is distributed throughout, setting it apart from yellow flowers that fade to a cream-colored tint toward the edges. This early bloomer is also a friendly combination partner that shines with first-year flowering perennials and other vibrant annuals, such as Sallyfun™ Deep Ocean Salvia.

2. Golf™ Beauty Improved Craspedia

Golf™ Beauty Improved Craspedia's playful golf-ball-shaped yellow blooms belong in a Dr. Seuss book! A definite conversation piece, Golf boasts more vigor and flower power than ever before. This unique plant is a stunner in gallon-sized containers and up. Golf's gorgeous full foliage and upright habit also lends itself to combinations and is a popular plant for floral designs. A consumer favorite, those who crave something different are immediately drawn to this Craspedia.

3. Nesia™ Inca Nemesia

Nesia™ Inca Nemesia is a new-for-2022 heat-tolerant powerhouse with on-trend deep yellow blooms. Consumers love Nesia in the garden because they know it can hold its own against the summer heat – even in the south. Growers appreciate its consistent, compact habit in packs, quarts, and gallons. This nemesia series plays well with other annuals and first-year flowering perennials, blending easily into high-color combinations.

 DANZIGER

Proven Winners

1. Suncredible® Saturn™ Helianthus

Building on the success of Suncredible® Yellow comes this bicolor yellow and russet red sunflower that you'll have primed for bud and bloom sales from summer through fall. Easy and fun to grow, this bee/butterfly-friendly plant reaches 36" in the garden – perfect for any size landscape and as a thriller in containers too. Also recommend this plant to your cut flower audience, we have harvested flowers that have lasted an extraordinary 16-18 weeks.

2. Augusta® Lavender Heliotropium

It's time to take a new look at Heliotrope! Augusta® Lavender offers an upright habit with lattice-like branching, selected for its outstanding landscape performance. Incredible heat and humidity tolerance make it great for the South, but it has shown equal promise in our northern trials. Think of this plant like a purple lantana, perfect for container recipes or mass planted in landscapes where it will reach 12-24" in height.

3. Safari™ Sky and Safari™ Dawn Jamesbrittenia

A new genus from Proven Winners, like Sutera but with far greater heat and humidity tolerance and stronger summer performance. Safari™ Sky (pictured) offers a lilac purple flower with a white halo and gold eye while Safari™ Dawn features flowers that shift between rose and lavender-pink with a large yellow eye. Good resistance to powdery and downy mildew, a good choice for containers, baskets, and recipes. These plants are also more forgiving than Sutera when subjected to heavy rains and windstorms.

Sakata

1. SunPatians® – Three New Color Introductions

SunPatians® are trusted by growers, retailers and landscapers alike for flourishing blooms in both sun and shade, spring through fall. With over 14 years of proven market performance, no other annual brings more reliable flower power across a wider range of conditions. New introductions include Compact Deep Red, Vigorous Sweetheart White and Vigorous White Improved.

2. SuperCal® – Five New Color Introductions

The all-weather petunia™ is expanding its color line! When it comes to garden performance, SuperCal® and SuperCal® Premium deliver intensely colorful, long-lasting, large flowers that bloom early and extend into the fall season! New introductions include Pink Improved, Premium Pearl White, Premium Purple Dawn, Premium Sunset Orange, and Premium Yellow Sun!

3. Viking Explorer – New Series!

This all-weather begonia has high impact color and a unique trailing habit with flowers covering tops and sides! This series is early flowering and matches the Viking and Viking XL series with an abundance of extra-large flowers. Viking Explorer is weather resistant and great for landscapes, containers and hanging baskets! The new series includes two colors: Red on Green and Rose on Green.

ALL-WEATHER

Syngenta Flowers

1. Everlasting garden performance. Endurance is the next generation in triploid breeding – F1 African x French Marigold brings the absolute best of both worlds! Extra-large double flower on a compact French Marigold habit. Exceptionally quick finishing allows for a nearly African-sized flower with nearly French Marigold timing. Heat tolerance and sterility combine for unsurpassed garden performance, providing masses of blooms all-season long. Available in 3 new colors – Orange, Sunset Gold, and Yellow

2. Step right up to thrilling color! These dynamic petunias offer unique flower colors and patterns with great mounding habits for a fun addition to hanging basket and patio container programs. Capture consumers' attention with Fun House Potpourri! New color for 2021 – Potpourri [pictured] Available in URC.

3. Blooming Brightly. Introducing a new Interspecific New Guinea Impatiens that is a category knockout. Spectra offers large flowers, excellent branching and intense colors. Easy-to-flower and versatile in sun or shade. 5 NEW colors–Bright Red, Magenta, Orange, Pink, and White. Available in URC.

BLOOMING BRIGHTLY™

Introducing a new interspecific New Guinea Impatiens that is a category knockout! Spectra is versatile in sun or shade and is early-to-flower with large flowers. Its uniform rounded habit ensures high-quality retail plants in all pots sizes and hanging baskets.

NEW ANNUALS **VARIETIES**

**Your guide to the latest annual varieties
from around the world.**

BEGONIA

This new **Glory Bicolor** from **Beekenkamp** is one our absolute favorites. The **Glory Bicolor** produces a rounded, fully covered plant with countless blooms. A real eye catcher because of its yellow and pink flower, just like a marshmallow. It will look great in containers and in the 5-inch pot.

Like all Nonstop begonias, **Rose Picotee** from **Benary** is great for baskets in shady locations, but this exciting introduction has a luscious, distinct bi-color flower. The rich rose edges are remarkably stable and don't fade in the heat. **Rose Picotee** branches better than our current **Rose Petticoat** for fuller hanging baskets and outstanding outdoor performance. **NONSTOP Rose Picotee** will replace **Rose Petticoat**.

Bowler from **Syngenta Flowers**

is a vigorous, bronze leaf begonia with large flowers and a unique, branched and mounding habit. Ideally suited for hanging basket production, yet versatile enough to also work in

large packs. Chocolate-bronze foliage contrasts beautifully with large, bright white flowers. New for 2021 is **Bronze Leaf White**.

NONSTOP JOY

Orange from **Benary** has an intense flower color and was bred to be super shippable.

Tough enough for sleeving and rack shipping, the **NONSTOP JOY** series creates a new, reliable product class for your basket programs. **NONSTOP JOY Orange** has a full mounded habit and dark green leaves that make the plant look lush and healthy. The **Non-stop Joy Series** is now available in **Red; Yellow; Orange; Rose Picotee; Mocca White and Mix**.

This *B. boliviensis* from **Ball Ingenuity** offers a stream of medium-sized begonia flowers all summer long.

Rivulet plants have a medium trail and good vigor. The well-branched habit makes a rounded, nicely filled body suitable for pots and hanging baskets. There are five colors available.

This new **Waterfall Bicolor** from **Beekenkamp** is one our absolute favorites for garden performance. The

New Varieties: Annuals

Waterfall Bicolor produces fully covered plant with countless blooms cascading in every direction. The Waterfall series is known for its elegant color with a continuous show all season long, and this new Bicolor is no exception with its trendsetting coral and white bicolor blooms.

This new Waterfall Bicolor looks great in quarts, gallons, containers and stunningly stylish hanging baskets.

CALIBRACHOA

One-of-a-kind colors and strong vigor mark the **Bumble Bee** calibrachoa from **Ball FloraPlant**.

This year Hot Pink joins the collection with large-size flowers. It stands out with a vibrant yellow throat and dramatic hot pink hue.

The **Rainbow Calibrachoa** series is the newest lineup to the **Dümmen Orange** portfolio. These vigorous varieties have a unique characteristic that causes the bloom color to change based on temperature, light level and day length when the bud is initiated, giving a constantly changing tricolor effect to the plants. The overall tones will be richer with deeper colors in the early spring and autumn seasons, and brighter, more vibrant tones in the

summer months. Rainbow varieties are extremely heat-tolerant, making them a top performer in summer baskets, large containers and even in-ground plantings.

CELOSIA

New series, unique genetics! Vibrant *cristata* blooms. Long shelf life with continuous

flowering, excellent for early spring through fall programs. Performs well in all climates, can also be used as an indoor plant. Like all **Beekenkamp's** Celosia Kelos varieties, these **Luna Series** varieties are day-length neutral, allowing for an early spring production to a season extender and sales both indoors and out. They work great in quarts, gallons or combination containers, and consumers love the unique bloom shapes and soft velvety textures.

COLEUS

Coleus '**Harvest Time**' from **Terra Nova Nurseries** produces attractive mounds of earth-toned red and toasted-orange foliage. Its vigorous branching creates a symmetrical plant that, in addition to its low-maintenance nature and late flowering, makes 'Harvest Time' a great selection for containers, hanging baskets, summer borders, and using en masse. It's hardy in Zones

10-11 with a foliage height of 14" and a foliage spread of 24".

Coleus 'Peach Julep' from Terra Nova Nurseries

forms an upright, slightly spreading mound. Its leaves are a creamy peach color, and they are edged in dark red and lime green. 'Peach Julep' glows in the morning light. Easy garden or pot culture, this plant does very well in mixed containers. Its hardy in Zones 10-11, and it has a foliage height of 14" and a foliage spread of 12".

Coleus 'Pumpkin Spiced' from Terra Nova Nurseries

is well-branched with a spreading, slightly upright form. It has watermelon-pink leaves that have a tinge of purple. It is a very showy plant, and it is great for use in hanging baskets, containers or as color masses in the summer garden. Its hardy in Zones 10-11, and it has a foliage height of 14" and a foliage spread of 30".

Spitfire from **Ball FloraPlant** is a micro-coleus that shows off stunning colors and patterns, and can be used in full sun or

shade. It's a versatile, premium variety that is very late to never-flowering, while offering consumers a low-maintenance, high-impact plant. Holds its colors very well in vibrant pink and lime green. Use in combos, containers and landscape borders.

DAHLIA

Offering great garden performance, **Gigante Fun Pink** from **Beekenkamp** keeps on flowering. Vigorous habit, incredible sturdy stems, nice large bicolor flowers – the name says it all. Gigante Fun Pink is "gi-normous" and is ideal for the 10-inch pot or bigger with just one rooted liner. The LaBella Gigante is perfect as a season extender, too.

The fastest-to-flower Dahlia with an abundance of small, long-lasting blooms. Sell **Dahlia Dahlita** from Selecta One as early as Valentine's Day! This series is the most compact of the Selecta One Dahlias. The series launches with bright solid colors and interesting bicolors.

LANTANA

The new **Heartland Lantana** series from **Dümmen Orange** is bred to be the heart of the landscape. These variet-

New Varieties: Annuals

ies come from the award-winning Havana series but with 30% more vigor for maximum landscape impact. Heartland varieties have extremely low seed set, allowing for continuous flower power throughout the summer months.

Shamrock is a new, medium-vigor series of lantana from **Ball FloraPlant** that works great in a wide-range of pot sizes – from quarts to hanging baskets. Series is uniform across all four colors, and the plants are well-branched with a mounded habit.

PENTAS

Like the rest of the series, **GRAFFITI 20/20** from **Benary Cranberry** thrives in hot climates, and this new unique, bold color is sure to stop customers in their tracks! **GRAFFITI 20/20 Cranberry** has huge, dense flower clusters and rich green leaves. Cool nights bring out the intense cranberry color for maximum impact!

PETUNIA

A beautiful new light greenish yellow color has been added to our top-selling series of **Hem Genetics'** Low-Grow genetically dwarf **Limbo series** of petunias,

which generally require no PGRs in production. This color combines well with other pastels or contrasting colors. Because of their compact habit, they require less maintenance in landscape beds or hanging baskets and are great in containers. This color is a Ball Seed exclusive for the introductory year 2021.

The **Sky Family** of petunias from **Selecta One** continues to expand in 2022 with an exciting new pattern for the Sky assortment. **Enchanted Sky** features both a hazy white star *and* sky pattern backed in a cheery pink flower color. The **Headliner** series is known for its mounded, medium vigor habit perfect for impactful hanging baskets and mixes.

Small but mighty! Tough and tiny! New for 2021 is **Itsy White** from **Syngenta Flowers**. Tons of tiny white blooms form a

blanket of coverage, providing undeniable retail appeal and fantastic garden performance. The perfect match to the super popular **Itsy Magenta!** Available

Graffiti 20/20
from Benary

New Varieties: Annuals

in URC and AutoStix.

The **Tea series** from **Beckenkamp** of petunias has been developed for ultimate performance by the gardener,

with outstanding weather tolerance. But with extremely early flowering the grower can take advantage of a full season of sales opportunities. The vigorous mounding habit means the plant is easy to control at production and the consumer will get great value and ultimate satisfaction in their gardens. The vein types in the Tea line are great eye-catchers and create strong impulse sales. Indigo Vein is our newest bold vein color in this collection to pair up with Magenta Vein, Purple Vein and Blue Vein.

REX BEGONIA

There are now four exciting series of Rex Begonias from the Ball Ingenuity team. Jurassic is our original new take on a classic plant. Jurassic Dino has a compact habit for 4-6" pots. Jurassic Jr. has 40% smaller leaves than Jurassic for less breakage. Jurassic Megalo is perfect for 10" pots and larger. Each offers a size and vigor to meet your customers' needs. They finish fast and uniform, and are a perfect addition to any indoor sales or shade

container program.

RUDBECKIA

Rudbeckia Arania from **Hem Genetics** is one of two new compact to mid-sized Rudbeckias. This

variety has large yellow flowers with a dark brown center and grows to 12-14" tall and 10-12" wide. Seed to flower is 14-17 weeks, depending on the season. Ideal for bright sun. They survive high heat and dry periods, as well.

Kokardia from **Hem Genetics** is our second new Rudbeckia and is slightly larger than Arania at 14-16" tall with a spread

of 10-12". The flowers of this variety are a golden yellow with a cold central ring of mahogany and a brown center. It's quite striking in the garden and it flowers profusely throughout the long days of late spring until frost. Ideal for bright sun, these are heat and drought resistant.

SALVIA

A breakthrough in the genus, the new **Hummingbird Falls Salvia** from **Dümmen Orange** is the industry's first trailing *S. guaranitica* for hanging baskets and cascading garden beds. This vigorous summer performer puts off a profusion of inky purple calyces with

*Hummingbird Falls Salvia
from Dümmer Orange*

New Varieties: Annuals

vibrant, indigo blue blooms that drive hummingbirds.

SCAEVOLA

Easy to grow!

Scaevola

ABANICO Compact Purple and Rose Improved from **Benary** are

drought tolerant once established and tolerate poor soil. Great in patio pots and baskets, these two beauties look great and are very well matched for vigor and timing, so they look great together or in mixed containers.

SNAPDRAGON

Rose Flame from **Hem Genet-**

ics is one of two new colors being added this year to our outstanding

Snappy series of dwarf snapdragons, bringing the total number of colors to more than 20! This one is a mid-pink with a deeper lip, splashed with highlights of deeper rose. Snappy snaps have a tight mounded habit and are covered with flowers through the growing season. Frost tolerant, they make great season extenders to sell with pansies.

VERBENA

Verbena Beats, a new series from **Selecta One**, has a naturally compact-spreading habit. It is durable for ship-

ping to retail and flowers two weeks earlier than other verbenas. Tolerant to heat, cycling and water stress so you'll never miss a beat of color. Production is easy with no pinch, no PGRs

This intense new bi-color adds excitement to hanging baskets or mixed containers! **Blue Wing** from **Benary** has large flowers and, like the entire series,

blooms very early. The mounded habit flowers in the middle for full baskets of color. Now available from cuttings in 17 colors, including 2 bi-colors from BenaryPlus.com.

VIOLA

White Blotch from **Hem Genet-**

ics is the newest color added to our popular Corina series of violas, bringing the colors available to 29. This one is pure white, with a deep purple to black blotch (face) in the center. Corina is a very uniform series between all of the colors for earliness and habit, with mounded plants 6-8" tall and a spread of 10". They are often completely covered in cheerful blooms.
