KEYSERV MAKES IT EASY

Our Acquisition Strategy is straightforward: we seek well-established landscape companies with strong growth potential, a solid team in place, and entrepreneurial leaders eager to stay involved. We favor companies with a healthy mix of both residential and commercial clients, while our service-mix preference favors recurring and enhancements services, your company’s mix of customers and services are not limiting factors in our decision-making process.

The companies we partner with have deep roots in their local markets, a reputation for excellence, and a clear commitment to their people. By combining their local expertise and leadership with KeyServ’s capital, technology, and a network of like-minded landscape entrepreneurs, we unlock new levels of opportunity and set the stage for breakout growth.

In short, we help the best companies reach their full potential. Founders continue leading their businesses while becoming key members of the broader KeyServ leadership team. Top-performing associates often rise into expanded roles, embracing new challenges and advancing their careers. Watching great companies grow is exciting—but seeing the talented teams behind them thrive is what makes this journey truly rewarding.

“Many great full-service landscape companies reach a point where continued growth requires significant investment—investment that’s often best made with the right partner. That’s where KeyServ comes in. We help entrepreneurs make that transition confidently, ensuring the company and teams they’ve built not only continue to thrive, but reach new heights—backed by their leadership and our capital.”

— Jeff Domenick

“I joined Keyserv Company due to the impressive landscape background of its team members, which instilled me with confidence in their expertise. The company’s commitment to taking the harder right, embracing challenges, and making ethical decisions resonated with my own values.”
