

## SEASONAL SOLUTIONS

# Too Much Snow? Too Little? No Problem.

## Weather Insurance Designed for the Landscaping Industry

**F**or lawn care and landscape companies, winter means opportunity and risk. When snow doesn't come, snow removal contractors are left waiting, and revenue can disappear overnight. On the flip side, when winter brings heavy snowfall, labor and equipment costs can skyrocket. Either way, your bottom line can take a hit.

**That's where Vortex Snow Insurance comes in.** We help landscape and snow management businesses protect their seasonal revenue—no matter what Mother Nature brings.

## Types of Snow Insurance

**TOO MUCH SNOW** | Choose the snowfall accumulation that would jeopardize your budget and the amount of money per inch of snow you want to cover. If snow exceeds the chosen level, you get paid.

**TOO LITTLE SNOW** | If total snow accumulation falls short of the chosen accumulation level, a lack-of-snow payout is triggered.

**SNOW-EVENT COVERAGE** | You indicate the daily snow total that defines the event, the number of snow events that will cause a budget overrun, and the amount of funds per event. When the actual number of events meets or exceeds the number in the policy, a payout occurs.

**UNIQUE SNOW COVERAGE** | Reduce the influence of a single heavy snow day with a policy that includes specific weekends or holidays when overtime costs are highest. You can also cover multiple locations.

### Why Landscapers & Snow Professionals Choose Vortex

- ✓ Revenue stability
- ✓ Simple, transparent quotes
- ✓ Industry experts who assess your weather risk in minutes
- ✓ Customizable policies tailored to your needs and budget
- ✓ Rapid payouts—claims are typically processed in less than two weeks
- ✓ No proof of loss or damage is necessary for a payout
- ✓ Peace of mind

“Seasonal snowfall variabilities are impossible to project, putting snow removal budgets at risk. With Vortex Snow Insurance, we can help build a customized policy based on your unique needs and risk profile.”
