

The **7th International IPM Symposium** is a cross-disciplinary, global-scale event for professionals in Integrated Pest Management (IPM) for idea-sharing and networking.

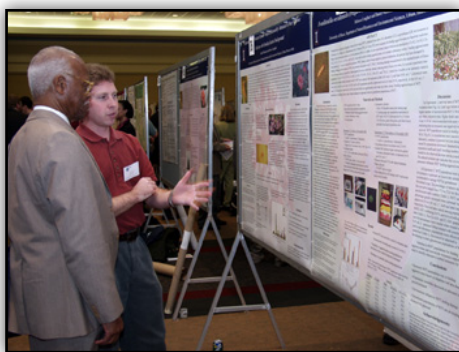

The Symposium draws over **700** researchers and professionals from a variety of fields and institutions including agriculture and community IPM. The schedule includes **eight** plenary sessions, approximately **270** oral presentations, **200** poster presentations and a **multitude** of networking sessions.

Opportunities for Engagement

Attend and Participate

Registration for the event (Tuesday, March 27 through Thursday morning, March 29, 2012) opens November 1, 2011. Registration is \$275 USD and includes several meals. Visit www.ipmcenters.org/ipmsymposium12 to register.

Present Research Findings

Proposals for poster presentations open in October 2011. Share your research and technical findings through poster sessions, held each evening of the Symposium. Submit your poster proposal by visiting www.ipmcenters.org/ipmsymposium12. *Please note, proposals for oral presentations are no longer being accepted.*

Nominate a Colleague for an IPM Achievement Award

Nominees for four categories of IPM Achievement Awards will be accepted October 1 through December 15. The categories refer to the scope of the nominee's work, divided by local or regional, national, international, or the lifetime achievement award. Visit the symposium website for more information.
