1. *Petunia SUCCESS!® Yellow Chiffon*

You need the best color, the best show, and the best habit for maximum profits. At last, *Petunia SUCCESS!® Yellow Chiffon* is here. As refreshing as a cool glass of lemonade. The well-formed light yellow blooms don't reflex and they hold their color all season. Perfect for premium baskets and mixes, *SUCCESS!® Yellow Chiffon* lives up to the high standards of the *SUCCESS!® Series*.

2. *Calocephalus Bed Head™*

Looking for some fun in the sun? *Calocephalus Bed Head™* is the first *calocephalus* from seed! Virtually unknown in the U.S., *calocephalus* is a favorite at the Aalsmeer flower auction because it's so versatile. It looks a bit like barbed-wire, but is soft, flexible and oh-so-touchable, that's why we called it *Bed Head!* Its silvery foliage makes eye-catching mixed containers, mono-culture pots or topiaries. It can even be dyed and used in wreaths or crafts.

3. *Salvia Farina®*

Salvia Farina® series is the super fragrant, super versatile *salvia farinacea* available from Benary+ as unrooted cuttings. Perfect for early spring sales, *Salvia Farina* performs well in pots, mixed containers or in the ground. The huge, full flower spikes grow to 18" tall in the garden, and hold their color all season. Available in six vivid, self-cleaning colors: Arctic Blue, Bicolor Blue, Blue, Silver Blue, Violet, and White.

PETUNIA X HYBRIDA **SUCCESS!**®

New Varieties: ANNUALS

Danziger

1. Portulaca Pazzaz™ Nano Series

Portulaca Pazzaz™ Nano Series from Danziger has a compact and moderate habit with big, beautiful flowers. This easy-growing, low-maintenance series includes four intense, vibrant colors for the summer garden. Nano Orange [pictured] features a semi-trailing, compact habit and sizzling orange blooms.

2. Petunia Amore™ Purple

Petunia Amore™ Purple from Danziger showcases large, gorgeous purple-and-white flowers on a mounded habit. Like its sister varieties in the Amore series, Purple blooms early. It has a long flowering period and fits well in pots, baskets and combos. It's part of the best-selling Amore™ series, with large flowers and contrasting stripes.

3. Bacopa Scopia® Gulliver Pink

Bacopa Scopia® Gulliver Pink from Danziger expands the giant-flowered Gulliver series with lovely pink blooms and exceptional heat tolerance. Early flowering and well-branched, Pink showcases extra-large flowers on a beautiful trailing habit. Performs well in full sunlight or partial shade. This vigorous variety is excellent for boxes, beds, mixed containers and hanging baskets.

Dümmen Orange

1. Coleus 'Main Street Ruby Road'

A grower favorite, Main Street coleus from Dümmen Orange is bred for reliable uniformity across the series and strong color retention under even the highest light conditions. With a diverse color assortment, Main Street offers plenty of versatile options for standalone or combination applications in sun or shade. One such option is 'Main Street Ruby Road', a new introduction for 2018 featuring a vibrant mix of hot pink, burgundy and chartreuse.

2. Calibrachoa Bloomtastic series

New for 2018, the Bloomtastic series was bred to be the most vigorous Calibrachoa offered by Dümmen Orange, making it a great option for quick turn production in small pots or for irresistibly impressive planters and baskets. Both 'Bloomtastic Rose Quartz' and 'Bloomtastic Serenity' feature remarkable heat tolerance, extra-large flowers, and a spreading growth habit. These have been trial-proven for garden performance, making them one of the few Calibrachoa on the market appropriate for landscape applications.

3. Petunia Potunia® Starfish

A favorite at California Spring Trials was 'Potunia Starfish' from Dümmen Orange, a very stable blue and white petunia with a distinctive pattern. Starfish joins a series long-trusted as an easy product for the grower; finishing in perfectly mounded bubbles of color ideal for pots, baskets, and packs. For quick color and unbeatable consumer appeal, look no further than Potunia® Starfish.

ANNUALS | PERENNIALS | POTTED PLANTS | CUT FLOWERS

Green Fuse Botanicals

1. Calibrachoa Cruze Control®

An exciting update to the Cruze series, Cruze Control® lives up to its name, Control! Early to flower, tight internode spacing and uniform bloom time make Cruze Control® perfect for production from 4" through hanging baskets. This complete sixteen color series means growers can stick with one series to answer all their color requirements. Huge flowers on all colors and deep eyes on the Cruze Control® Delicious jump out at retail. The controlled habit means little to no growth regulators, cruising the growers to easier finishing.

2. Petunia QT®

Petunia QT® have been bred to hold their tight uniform habit without the use of growth regulators. This gives QTs® a longer selling window, so growers have more flexibility on when plants must ship to customers and how they hold on retail shelves. The QT® series is completely GMO-free including QT® Orange. Rounding out this full color series are the 2017 introductions of Blue, White and Yellow. QTs® are perfect in any container from 4" to 14".

3. Fuchsia Windchimes® Basket

The Windchimes® Basket series receives a great new addition of Pink Lilac. Massive flowers on this daylength neutral variety will grab anyone's attention. The Windchime® Baskets perform uniformly from early spring and even into the heat of the summer. Their tight internode spacing allows for high density production without sacrificing plant habit.

LEUCANTHEMUM COLLECTION

Leucanthemum White Mountain®

Leucanthemum Darling Daisy®

Leucanthemum Angel Daisy®

The **Green Fuse™ Leucanthemum** is diverse in form and function. **Darling Daisy®** is compact and tidy. Perfect for production in quart size containers. **Angel Daisy®** has a garden height of 8" to 12" with a unique flower form at maturity. **White Mountain®** is the largest variety of the three with 3" flowers and a sturdy plant structure. All three varieties are first year flowering with no vernalization.

PanAmerican Seed

1. Pentas Lucky Star

Lucky Star is bred for the fastest follow-up blooming of any pentas on the market and a one-week bloom window. Nonstop color means plants look better getting off the truck and they just keep getting better in the store! Follow-up blooms do not eclipse the prior flush, so plants stay compact, tight and tidy with virtually no effort. Lucky Star gives the promise of continuous, showstopping color on full, lush plants all season.

2. Begonia Megawatt

Megawatt is a fresh, high-energy option in begonias, pushing this must-have class to a whole new level with great timing benefits, a unique color, ultimate garden power, and more. These bigger-than-life hybrids open the door to earlier spring sales for gardens, planters and baskets. Sturdy flower stems hold flowers above the foliage for superior show. NEW Red Bronze leaf has big flower power! Fits well with the other Megawatt Bronze Leaf varieties for timing and habit.

3. Plug & Play Combos

This fresh and relevant collection is built on internal and external testing in multiple regions. Trialing in saleable sizes begins at the PanAmerican Seed research greenhouses and in outdoor Summer containers. Then every potential introduction heads out to commercial greenhouses and to real-life gardens. This fully vetted collection of 60+ Plug & Play combos promises easy, economical production – some featuring the built-in recognition of the Wave brand. Get big retail shows and gardener-satisfying results.

PlantHaven

1. Isotoma 'FIZZ N POP' Pretty in Pink

Pretty in Pink is the hot pink complement to Glowing Violet. Fantastic for low water summer pots and containers. Nectar-rich flowers are great for hummingbirds and beneficial pollinating insects! Bred for long season of interest in patio pots and containers. Excellent for low water landscapes. A perfect Southern Perennial, especially for California. Best in full sun in well-drained mix. Height and spread 12" x 12". USDA Zone 8. Approximate finishing time: URC – Retail Ready QT: 10-12 weeks. Additional information can be found at bit.ly/2sDFnxi

2. Dahlia Mystic Sparkler

The newest edition for 2018 to our market-leading Mystic Dahlia Collection, from New Zealand's leading professional breeder, Dr. Keith Hammett. Topping the signature glossy ebony-black foliage are bright flamingo pink flowers with warm yellow halos and dark central discs, sure to make any planter "pop." Large nectar-rich blooms are great for beneficial pollinating insects! Tidy, rounded habit, ideal for mid to front of border or in larger pots or containers. Best in full sun in well-drained mix. Height and spread 30" x 30". No staking required. USDA Zone 9. Approximate finishing time: URC – Retail Ready GL: 10-12 weeks. Additional information can be found at bit.ly/2sDFI2K

3. Salvia BODACIOUS™ 'Rhythm & Blues'

The hit of Spring Trials 2017. The perfect plant to create a rocking party in the garden! Masses of large saturated dark blue flowers with black calyx and stems, free flowering throughout the season. Dark green foliage not yellowing with the season. Nectar-rich blooms are excellent for hummingbirds. Tidy, rounded habit, ideal for mid to front of border or in larger pots and containers on the summer deck or patio. Best in full sun in well average moisture. Ultimate height and spread 36" x 36". No staking required. USDA Zone 8. Approximate Finishing Time: URC – Retail Ready GL: 10-12 weeks. More information can be found at bit.ly/2sDvTSx

NEW ANNUAL VARIETIES

Your guide to the latest introductions from around the world.

Compiled by Chris Manning and Maddie Capron

ANGELONIA

Angelonia pac Angelos Blue & White is a spectacular additional bicolor flower, top half blue, lower half white, big, orchid-like, with early flowering. Bred by **Jaldety**. Perfect for summer beds and garden performance; long-lasting bloomer; many flower spikes. ° rives in heat and humidity and is easy to grow. Used in combinations, containers for patios, decks and window boxes.

Blue & White

BEGONIA

Begonia Dancing Peacock from **Terra Nova Nurseries** has a large, bushy and shrubby mound-ing habit, and it thrives in shade. ° e variety has wildly colored, fanciful pal-mate leaves of rose-purple, silver, mint, and olive-green that stand out in large containers or summer shade borders. It fills containers quickly and was bred to flourish in the garden or as a houseplant. ° is exotic begonia has fan-shaped leaves majestically resembling a peacock's tail.

Begonia Holiday 'Jolly Holly' from **Terra Nova Nurseries** has bright, shiny, holly-like leaves embossed with silver that are complemented by clusters of small, red flowers resembling holly berries. ° ese male flowers are

formed in winter, never open and add extra cheer to this already delightful plant. ° is wintertime begonia has a medium-small, dense, upright habit, which fills containers well. With a foliage height of 17", foliage spread of 22", and flower height of 19", this joyful variety would make for a lovely Christmas display.

Begonia Spectre 'Silver' from **Terra Nova Nurseries** has very broad, maple-shaped leaves of glowing mint-green and silver-white that are accompanied by bright red-pink, long-lasting flowers, which hang about the plant casually. ° is vigorous, easy growing, well-branched begonia forms an impressive, 10-inch basket. ° e unusual and attractive plant contains a 16-inch trailing habit,

New Varieties: ANNUALS

Stardust

hardiness zones of 8-11, and thrives in shade. 'Silver' is the first introduction to the company's new SPECTRE series.

Begonia T REX 'Stardust' from **Terra Nova Nurseries** is made up of fresh green, burgundy and violet foliage, which is stippled and spotted with cream-colored dots. The leaves are medium-to-large-sized, very showy and sometimes spiraled, and the color varies with the temperature, but is always beautiful. What makes this

Yellow

marvelous plant of interest in gardens and landscapes includes its large, full, shrubby, and mounding habit; hardiness zones of 9-11; ability to thrive in part or full shade; ability to be shipped cool; and of course, its galaxy of colors. 'Stardust' also serves well as an interior plant.

BIDENS

Yellow is a sunny addition to the **Beedance bidens** series from **Suntory Flowers**, bringing a nice solid color to the two bicolored varieties. Plants are more compact and retain a nice mound through the season. Beedance varieties offer a high flower count and continuous bloom spring through fall. Perfect for combination plantings. Beedance bidens sales support honeybee health research through the

Autumn Beauty

Spring Fling

Fiesta

Flamingo

Butter Pop

Pollinator Partnership.

CALADIUM

Autumn Beauty is a chartreuse fancy leaf with maroon veins. When Autumn Beauty from **Bates Sons & Daughters** is grown in the shade, it keeps a chartreuse color. However, when it is grown in full sun, it develops a rust-colored overlay on the leaves. It is a very striking contrast. This is one of the oldest caladium varieties no longer grown that we have brought back into production. De-eyeing is recommended for 4" and 6" pots. It was released for sale in 2017.

Fiesta is a short fancy leaf caladium with bright white leaves and thick red veins. Fiesta has many leaves and does not require de-eyeing. It makes a nice full pot for 4, 6 and 8-inch containers. It performs well in sun or shade conditions. This is a University of Florida release, but **Bates Sons & Daughters** is currently the only caladium farm that has it in production.

Flamingo is fancy leaf caladium with

a neon pink center and a bright green border. It will perform very well in the full sun. Uses include all container sizes and landscape plantings- sun or shade. De-eyeing recommended for 4 and 6-inch pots. A **Bates Sons & Daughters** exclusive. It was released for sale in 2017.

Spring Fling is a translucent pink fancy leaf with prominent green veins and black stems. It will perform very well in the full sun or shade. De-eyeing is recommended for 4 and 6-inch pots. Uses include all container sizes and landscape plantings. It has won top awards from Disney and the Florida Flower Trials for the past two years. A **Bates Sons & Daughters** exclusive. It was released for sale in 2017.

CALENDULA

A new genus for Proven Winners, our new **Lady Godiva Orange Calendula**

broadens our collection of cold tolerant annuals for spring and fall sales. Although it is known as an early season crop, this selection will take some heat and is drought

tolerant once rooted in. Its unique double, golden-orange flowers have greatly reduced seed set, which encourages the blooms to keep right on coming all season. 10-16 inches tall x 12-18-inch spread. Part sun to sun.

CALIBRACHOA

Inspired by buttered popcorn, this new Million Bells variety from **Suntory Flowers** is two-toned with pale yellow

New Varieties: ANNUALS

flowers with dark yellow centers. Habit is mounded and bursting with flowers. **Million Bells Butter Pop** plants are earlier to bloom than current yellow Million Bells varieties. ° is variety looks especially nice paired with cool blues. Million Bells was the first calibrachoa series and continues to have the greatest name recognition.

Funtastick is a beautiful high stem Calibrachoa from **Hishtil** that displays a high density of flowers in several colors. It can be used as a unique ornamental for a wide range of purposes.

° e arrestingly unique color of the new **Superbells Blue Moon Punch** from **Proven Winners** will stop you in your tracks! Cool lavender blooms with a deep

Double Ruby

purple eye and black throat transition to silvery light purple as they age. Larger than typical, the flowers appear on cascad-

ing stems early in the season and continue to bloom into fall without deadheading. ° is variety has been screened specifically for resistance to ° ielaviopsis and can be grown in combination baskets with other medium vigor varieties. 6-12 inches tall x 12-24-inch spread. Part sun to sun.

We've searched long and hard for double-flowered calibrachoa that live up to our rigorous standards and have finally found it. **Superbells Double Ruby** from **Proven Winners**

Funtastick

New Varieties: ANNUALS

presents exquisite, fully double, deep red flowers on bushy, cascading stems from spring into fall without deadheading. It runs in stride with other Superbells and is beautiful grown in combination with other medium vigor varieties or on its own in hanging baskets. It has been screened specifically for resistance to *Clavovirus*. 6-12 inches tall x 12-24-inch spread. Part sun to sun.

CAMPANULA

Campanula Milky Way from Jaldety, a delightful hardy plant, which produces large bells flowers from late spring to

Blue Moon Punch

New Varieties: ANNUALS

Tianis White Evolution

DecoMix Evolution

mid-summer, double white in color with heavy red spots on the inside. Thriving in full sun, it will tolerate medium shaded sites and offers a long flowering period. A great plant for small pots, Milky Way also combines well with other perennials in bigger pots.

CYCLAMEN

Deep Salmon from **Morel Diffusion** is a new color in the range. Very deep and vibrant salmon tint on round petals. Round and compact growth identical to the other recently improved Tianis varieties.

The **Metis Victoria DecoMix evolution** from **Morel Diffusion** is a very long-lasting plant with a round and compact shape. It has central flowering and solid temps and it performs excellent outdoors. It's been awarded as an OUTstanding Cyclamen. A way to use it: eyecatcher in window boxes or in garden combos!

Halios Victoria 50 rose with eye from **Morel Diffusion** has nice big, pink petals, intense magenta eye, stronger flower contrast than our previous selection. Its main advantages are diversifying your

offering, uniform and compact plants. It's extremely floriferous and has very central blooms. It is also the perfect gift plant.

Tianis White Evolution from **Morel Diffusion** replaces and improves previous White variety. Round and compact habit, excellent performance in a greenhouse or outdoors. Fast-growing with abundant flowers, exceptionally

Rebel

All photos courtesy of respective breeders

Deep Salmon

Rogue

Rose with eye

long-lasting blooms. Contrasts with dark foliage.

The smallest mini **Fantasia, Smartiz Fantasia Red** from **Morel Diffusion** is super compact and easy to grow. Matching intense colors supplement the range, hyper-compact growth similar to 6305 and 6395. Very small and abundant flowers. Easy to grow, ideal for very

small pots, even in the micro version in summer and autumn.

DAHLIA

Rebel is a cheerful, saucy, brightly colored dahlia that loves sunshine. **Rebel**, from **HilverdaKooij**, is an attractive decorative dahlia with firm stems and flowers with flat petals and a few petals rolled up in the middle. If properly cared for, the dahlia

New Varieties: ANNUALS

Moodz

will continue to flower until the first night frost. Rebel can be quickly and easily grown in pots of 12 cm and upwards.

DELOSPERMA

All WoW Delosperma flower continuously from early summer to early winter with incredible range of re-blooming big bright flowers. **Fire Wonder** from **Florist**

Holland (not pictured) has big orange flowers with yellow center, creating a huge color impact, attracts bees and butterflies, is drought and heat tolerant, winter hardy and easy care. Fabulous in mixed containers, hanging baskets, mass and mixed planting, great accent for patio and balcony, rock gardens, low borders, roof planting and flowering groundcover.

Berries & Cream

Capitol Reef

Sedona

Volcanoes Improved

Sweet Love

ECHINACEA

Mooodz from **HilverdaKooij**, is different because growing it involves a different cultivation method (without vernalization), which produces beautiful, full plants within a short time period (12 to 13 weeks). Unlike many other Echinacea varieties, Mooodz is propagated by means of tissue culture. The result is a beautifully full plant with many side shoots.

GERBERA

It is tasty, brand-new blend within the Sundayz outdoor Gerbera series offers seven to 10 days longer shelf life than your average pot gerbera. Cherry reds, soft creams and blush pinks — it's all in the mix for **Berries & Cream** from **Florist Holland**. With this unique variation of shades, it is so easy draw attention at retail and create a winning combination for color bowls and planters in your outdoor living area.

It is beautiful pink and white picotee will capture the hearts of many. The palm-size flowers and firm stems instantly convince at retail. A perfect gift item: **Patio Gerbera Capitol Reef** from **Florist Holland** is a great and long-lasting alternative for a regular bouquet. The flowers keep on popping up.

Patio Gerbera Sedona from **Florist Holland** is the gerbera for patio containers with compact, uniform plants that look sensational on every deck, porch, veranda or patio. Sedona is one of the new quick-to-finish varieties in the line-up of Patio Gerberas. Fun bonus: It is an excellent cut flower as well. The red blooms measure up to 12cm (5 inches) in diameter, and will last for two weeks in a vase.

It is flaming stunner is a great new addition for summer and autumn sales. Quick

Hello Compact Yellow

timing, full plants and tons of bicolor flowers; that's **Patio Gerbera Volcanoes Improved** from **Florist Holland**. Fun bonus: Use the flowers for your holiday table.

Long-lasting passion and not high maintenance; that is what this hot new Garvinea gerbera from **Florist Holland** has to offer. The intense red **Sweet Love** flowers abundantly from early spring to frost and can handle all types of weather conditions. Due to its hardiness and resistance to pests and diseases, it is a true carefree garden performer.

HELICHRYSUM

Bred for **Cohen** exclusively by Breier, we are excited to introduce six new varieties to the **Helichrysum Hello** series. Vibrant colors, including one compact variety (**Compact Yellow**), this series features heat and drought tolerance. Proliferous flowering habit and fast to grow, suitable for medium/large pots and as bedding plants.

LEWISIA

Following on from the highly successful **Lewisia Elise Mix**, **Elise Ruby Red** by **Floragran** is a stunning, single-colored **Lewisia cotyledon** which allows produc-

Elise Ruby Red

New Varieties: ANNUALS

Bee Bananas

ers to grow another single color alongside Elise White and Mix. Its abundant, continuous flowering provides a delicate looking, yet very strong pot or container plant that will flower for four to five months from sowing until the first frosts. Elise Ruby Red blooms continuously throughout summer, lighting up containers and rock gardens. Tolerating heat and drought well, Lewisia Elise Ruby Red is also perfectly happy with cooler temperatures and will overwinter with protection from wet weather. It is also a Fleuroselect winner.

MANDEVILLA

Looking for classic elegance? New from **Suntory Flowers, Sun Parasol Giant Pure White** features elegant pure white flowers. Throats are white instead of yellow. Pure White joins the Sun Parasol Giant Group.

Flowers span 3-5 inches. Plants are natural climbers and thrive in heat. Try mixing with other Giant varieties to create premium trellised planters and hanging baskets.

MIXERS

Suntory Flowers has added three new mixers to its combo kits. Two feature beedance bidens and one has summer

Sun Parasol Giant Pure White

Double Moonglow

New Varieties: ANNUALS

Surfinia Trailing Red

wave torenias. Love yellow? The sunny **Bee Bananas** combo features bidens Beedance Yellow, calibrachoa Million Bells Tropical Delight and petunia Surfinia Trailing Yellow. **Bee Colorful** is as playful as a box of crayons with bidens Beedance Painted Red, lobelia Suntory Lobelia Trailing Sky Blue and petunia Surfinia Deep Red. Looking for something different for shade? **Purple Reign** features three dreamy shades of Summer Wave torenias — Large Violet, Large Silver and Amethyst.

OSTEOSPERMUM

A new look in Osteospermum, **Double Moonglow** from **Proven Winners** is perfect for your spring collection. Everyone loves daisies, and this double-flowered

selection is twice as nice with its large, white flowers and showy yellow centers. The center petals pull double duty too by keeping the flowers open all day, unlike single cultivars which tend to close in low light. This variety is cold tolerant but can take more heat than typical Osteospermums, which helps to keep them in flower all season long. A definite must-try for your new item list. 8-12 inches tall x 8-12-inch spread. Part sun to sun.

PETUNIA

For 2017-18, **Hem Genetics** will introduce a breakthrough with picotee colors in their **Limbo GP** series, three colors this year, **Red Picotee**, **Rose Picotee** and **Burgundy Picotee**, with more colors coming in 2018. The series' benefit is that

there no need for PGRs to keep the plants compact, both for growers and gardeners, which means less cost both in materials and application labor, plus better garden performance for the consumer.

Rev up your reds with the new **Surfinia Trailing Red petunia** from **Suntory Flowers**. Compared to the popular Surfinia Deep Red, plants are fuller and more vigorous as a premium trailer well-suited

to hanging baskets. Flowers are larger with a brighter color. ° is essential red will be perfect in patriotic combinations. Surfinia petunias are known worldwide for outstanding garden performance.

Hem Genetics Rose Picotee

Intensia Red Hot

Rockin' Deep Purple

PHLOX

We've found the ideal plant to include in your patriotic combinations in the new **Intensia Red Hot Phlox** from **Proven Winners**. True red flowers are produced prolifically from early spring through fall on mid-sized plants that make perfect fillers in hanging baskets, upright containers and landscapes. It pairs perfectly with

Intensia White Phlox. This species of Phlox is extremely tolerant of sun, heat, humidity and drought, so it's the perfect choice to showcase in your displays in the heat of summer when some other plants might be struggling. 10-16 inches tall x 10-16 inches wide. Full sun.

New Varieties: ANNUALS

SALVIA

An improvement over Amistad, **Rockin' Deep Purple** from **Proven Winners** boasts a more compact, well-branched, less rangy habit that presents well as a thriller in large container combinations and in landscapes. Its large, deep purple flowers held by black bracts keep this plant in color all season long, attracting pollinators with their sweet nectar. 18-36 inches tall x 24-30-inchespread. Part sun to sun.

THUNBERGIA

With complementary soft pink flowers, **Arizona Pink Beauty** from **Jaldety** is a new color addition, masses of soft pink

flowers with dark center from spring through autumn. Combines well with other white and dark pink varieties for a high-valued product. Ideal for mix hanging baskets, pyramids for patio and decks, showy cover for arches and pergolas.

Finally **Dark Pink** from **Jaldety**, a sensational new color addition, masses of dark pink flowers with dark center from spring through autumn. Combines well with other white and soft pink varieties for high valued product. Ideal for mix hanging baskets, pyramids for patio and decks, showy cover for arches and pergolas.

Arizona Pink Beauty

New Varieties: ANNUALS

Easier to handle than most rambunctious Thunbergias, the **Tangerine Slice A-PEEL** from **Proven Winners** is more restrained and has an increased shelf life and sales window for growers and retailers. It makes an excellent climbing component for combinations paired with other vigorous varieties and is beautiful in monoculture as well. Orange and yellow bicolor flowers with a black eye dot the bright green foliage all season long. Recommend this plant as a quick screen for patio trellises, chain link fences and mailbox gardens. Requires a trellis in Royale containers. 5-8 inches tall x 1.5-2-foot spread. Part sun to sun.

VERBENA

The Verbena Tiara series from **Cohen** consists of a Classic line (with large flower varieties) Eye line (with white eyed flow-

ers) and the Mickey line (tricolored varieties). The **Tiara Mickey Rose Red** is an addition to Mickey line. The plant roots and grows fast. It has half hanging habits in a mature stage.

The flowers are large and are available in different shades of red and rose. Suitable for baskets and all pot sizes. Stock plants are produced from SEE certified material and kept in the state-of-the-art facilities of Cohen so you can grow them with utmost confidence. **GM**
