

BATTERY AND CRITICAL METALS RECYCLING CONFERENCE

JUNE 17 - 18, 2024
ATLANTA

SPONSORSHIP PROSPECTUS

THE PROLIFERATION OF ELECTRONIC CONSUMER GOODS, INDUSTRIAL AND COMMERCIAL EQUIPMENT AND, INCREASINGLY, ELECTRONIC VEHICLES (EVs) is creating an enormous flow of end-of-life batteries. Only a small percentage of these are collected and recycled.

As stored power becomes more important to society, the recycling of batteries to harvest their raw materials, protect the environment and protect assets is essential.

This unique event provides the opportunity to build awareness of your brand and show support for the circular economy in this rapidly emerging sector.
